

Jeff B. – Firefighter

I'm a new father and it is very important to me to look after my son provide for him and protect him.

And I realize that California Casualty is very similar because I had nothing but great experience and they've looked out for me and my well-being just as I look after my son's well-being.

I bundled my house, two vehicles and a motorcycle. That saves me an excess of \$50 per month which allows me to spend a little extra money on this little bundle of joy.
